

Remarks

The, All electric battery driven vehicle, runs on electric current by the following means:

1. One or more batteries transmit electric energy to a, Electric Wire Distributor Connector.
2. The, Electric Wire Distributor Connector, transmits electric current to a electric motor.
3. The electric motor turns a generator, which transmit electric current to one or more batteries to charge the batteries.
4. The, Electric Wire Distributor Connector also, distributes electric energy back to one or more batteries to recharge the batteries.

The batteries do not run on perpetual, or run continuously.

Conditional Request for Constructive Assistance

Applicant has amended the specification and claims of this application so that they are proper, definite, and define novel structure which is also unobvious. If, for any reason this application is not believed to be in full condition for allowance, applicant respectfully request the constructive assistance and suggestions of the Examiner pursuant to M.P.E.P. 2173.02 and 707.07(j) in order that the undersigned can place this application in allowable condition as soon as possible and without the need for further proceedings.

Thanks Sincerely,

Abram Ellison
